

To Whom It May Concern,

01/07/2024

The Platte Canyon Fire Protection District and the Burland Firewise Community have a long history of working together to create a Firewise designation for the Burland subdivision in Bailey, CO.

Through tireless efforts both the homeowners in Burland and the fire district have achieved the goal of hardening the Burland community against the risk of catastrophic wildfire. This has been done through volunteer work, grants, education and much more.

This designation has taken our organizations years to achieve and we continue to collaborate on broadening the Firewise understanding and creating defensible space in the Burland community.

Thank you.

Sincerely,

Ben Mulligan  
Chief
