

Burland Firewise

Property Mitigation Eligibility Application

The Burland Homeowners Association (BHOA) Firewise program works with several agencies that can provide services to our community for fire mitigation projects. If you would like your property to be considered for possible mitigation if these services are offered?

The mission of the *Burland Firewise* Program is to reduce the threat of wildfire by assisting our local communities (Burland Ranchettes, Bailey Mountain, Burland Meadows, Double C, Double S, Park 80 West, Roland Valley, Trails West) to maintain its **Firewise Community** status, provide educational materials for fire safety and to help coordinate external resources that may provide mitigation services.

The Burland Homeowners Association (BHOA) and the Property Owners feel a need to improve the forest health and reduce the Wildland Fire Urban Interface Hazard on their property by thinning vegetation and trees, and felling, limbing, cutting, and removing or chipping live and dead forest fuels.

If yes, please complete the application below:

Name: _____

Email address: _____

Phone: _____

Physical Address: _____

Mailing Address: _____

Screen out factors
